Then, consider the following questions:

What was the man like at the start of the film? In what ways do resemble this man?

What causes the man to change? How many does he impact others?

What more could you do to be an active and engaged citizen?

Many times, we are stuck in our own world and indifferent to the problems and issues that surround us. As you are becoming an adult citizen of this world, it is important for you to take a vested interest in making the world a better place. Too often we do not care about issues until we are personally impacted by them. The senior project allows you to learn and draw attention to issues that are impacting our school, community, country, or world.
